

PRODUCER III DISC PUBLISHERS

MISSION-CRITICAL PERFORMANCE & DEPENDABILITY.

Automatically record and print DVDs and CDs
from anywhere on your network—*individually or by the thousands.*

 R I M A G E™

RIMAGE PRODUCER III DISC PUBLISHERS

CHOOSE A TRUE
disc publishing solution.

The Rimage Producer III gives your organization the power to quickly process, burn, and print DVDs and CDs—*automatically*, without the high labor costs and delays of manual operations or outsourcing.

But the Producer III is much more than a duplicator—it's a disc publisher, capable of producing a wide variety of unique discs, each with its own content and label, from as many people and departments as you have on your network. As jobs come in, Producer III efficiently queues and produces them without human intervention.

Now your business or government agency can deliver customized and personalized data, images, and multimedia content to clients and customers in an attractive, low-cost, universally accepted format with high perceived value.

NEW & IMPROVED FEATURES *make these the best disc publishers ever built.*

HIGHER THROUGHPUT FOR THE FASTEST DISC CREATION IN THE INDUSTRY.

Rimage combines exclusive Data Streaming™ technology, accelerated caching, high-speed recorders, the fastest robotics, the industry's most advanced print technologies, and the efficiency and control of world-class software to deliver true productivity—maximizing the number of discs you can record and print per hour.

- NEW and exclusive Data Streaming with overlap recording technology delivers top-notch performance for both CD and DVD creation
- NEW double-speed hardware interface
- NEW streamlined robotic firmware

FEATURES FOR MAXIMUM CONVENIENCE & CONFIDENCE.

- NEW at-a-glance status ensures job quality and consistency
- NEW easier access to printer consumables
- NEW internal lighting for easy viewing
- NEW automatic tracking of disc and ribbon consumption for ease of use
- NEW instant job and system status via optional status light

UNPRECEDENTED AUTOMATION & RELIABILITY FOR “HANDS-OFF” OPERATION.

Unparalleled levels of hardware and software automation keep labor costs and downtime to absolute minimums. High disc capacities, automatic consumables monitoring, low-maintenance designs, and sophisticated disc, data, and print handling technologies all minimize the need for human intervention.

- Reliable robotics accurately transport discs from input bin to recorder to printer and output—all seamlessly and automatically
- The most robust systems in the industry

AMAZING VERSATILITY.

Only Rimage's Producer III is optimized for *both* publishing (each disc is unique) and duplication (many identical discs). And only Rimage offers you so many ways to handle so many different types of jobs.

- Create a solution tailored to your needs with your choice of print technologies, software, and up to four combination DVD/CD recorders

PRODUCER III MODEL 7100

For applications requiring high throughput, high reliability, multiple full-featured remote users, and “hands-off” operation.

Includes two recorders, and a complete Control Center.

RIMAGE PRODUCER III DISC PUBLISHERS

DEPENDABLE, INNOVATIVE, HIGH-SPEED DVD/CD RECORDING MEETS YOUR MOST DEMANDING REQUIREMENTS.

Rimage has engineered the Producer III family of publishers to deliver unparalleled versatility, sophisticated high-speed data handling, and unique DVD/CD publishing capabilities—combined with amazing ease of use.

With two models and a wealth of configurations from which to choose, you'll find a tough, robust Producer III solution for every operating environment—including specific hardware, software, print technologies, and peripheral options tailored to your needs and network.

No other system offers you so much power and flexibility while meeting the demands of 24/7 production.

*Manually producing DVDs and CDs requires loading each disc into a drive, burning it, then removing it and printing or writing a label as a second step. Outsourcing means higher costs, delays, and the headaches of dealing with vendors. **Producer III does it all automatically—right on your network.***

PRODUCER III MODEL 8100

For applications demanding the ultimate in throughput and reliability, as well as full-blown networking and "hands-off" operation.

Includes four recorders, a complete Control Center, and an external disc output bin.

DEEP, POWERFUL, EASY-TO-USE RIMAGE PRODUCER SOFTWARE.

Flexible, stable, full-featured applications make it easy to produce professional-quality discs, while helping your organization get the most from its investment.

- *Wizard-based disc creation with deep customization options for easy 1-2-3 creation of any kind of DVD or CD*
- *Wizard-based label designer with many customization options for easy, step-by-step professional label creation*
- *True client/server technology offers full-featured remote clients, easy expandability, modularity, monitoring, real-time job status, and real-time system status and control*

THE INDUSTRY'S BEST PRINTING TECHNOLOGIES.

Choose either **Everest™**, for photorealistic discs with the best durability of any printer in the world, or **PrismPlus!™**, the fastest disc printer on the planet (see back page for details). Or choose both to meet your changing needs.

THE INDUSTRY'S BEST SERVICE.

- **24x7 support keeps you up and running around the clock**
- **Choose from a variety of full service and aftermarket options**

R I M A G E™

PRODUCER III DISC PUBLISHERS

At Rimage, our clients are as diverse as our solutions, but they all need a robust, reliable platform that automates the production of professionally labeled DVDs and CDs on demand. The advanced technology, powerful automation, robust robotics, rugged construction, and 24/7 performance of a Rimage Producer III system will exceed your expectations every time, whether your organization is involved in:

Software Development • Document Management • Archival/Storage Solutions • Banking & Financial Statements
ERP-to-disc • Real-Estate Documents • Photography • Digital Video & Audio • Medical Imaging • Records Management
Marketing-Material Distribution • Or any application creating important CDs Or DVDs

CHOOSE FROM TWO INDUSTRY-LEADING PRINT TECHNOLOGIES.

Select either or both, to meet your changing requirements:

Everest™ Thermal Re-Transfer Printer—top-quality color with unbeatable print durability

- The ultimate in full-color, photo-realistic results (plus exceptional monochrome and grayscale)
- Permanently bonds to disc for waterproof, abrasion-resistant performance
- Maximum flexibility for mainstream applications
- Fast printing times

PrismPlus!™ Thermal Printer

- On-demand monochrome printing
- Unprecedented speed and exceptionally low per-disc printing costs
- Indelible process requires no drying time
- Perfect Print™ feature lets you print text on pre-silk-screened DVDs and CDs

MODEL 7100

• Disc Capacity

300 disc capacity with four 100-disc bins configurable to input/output/reject.

• Physical

H 25.3" x W 15.5" (16.1" door) x D 25.3" (64.3cm x 39.4cm [40.9 door] x 64.2cm)
Loader 75lb (34kg),
Everest 50lb (22.7kg),
Prism 23lb (10.5kg)

• Power

100-240VAC, 4.7-3.7A, 60/50 Hz,
500W maximum

• Certifications

Emissions: FCC Class B
Safety: UL, cUL, CE

• Interface

FireWire™ 800, USB to Printer/Loader

• Operating Temperature

60°F - 86°F (15.5°C - 30°C)

• Relative Humidity

40% - 80%

MODEL 8100

• Disc Capacity

300 disc capacity with four 100-disc bins configurable to input/output/reject. Also includes special 70 disc external output bin.

• Physical

H 28.6" x W 15.5" (16.1" door) x D 25.3" (72.6cm x 39.4cm [40.9 door] x 64.2cm)
Loader 88lb (40kg),
Everest 50lb (22.7kg),
Prism 23lb (10.5kg)

• Power

100-240VAC, 4.7-3.7A, 60/50 Hz,
500W maximum

• Certifications

Emissions: FCC Class B
Safety: UL, cUL, CE

• Interface

FireWire™ 800, USB to Printer/Loader

• Operating Temperature

60°F - 86°F (15.5°C - 30°C)

• Relative Humidity
